

Performance Credenza

NUCRAFT

PERFORMANCE CREDENZA ENHANCEMENTS feature a variety of convenient options to address a wide range of application needs, from technology to food and beverage service and storage. New standard offerings deliver increased design freedom through additional paint finishes and top material options, supporting a range of project budgets. The new integrated pull provides a more minimalist design choice.

Painted Cases

A popular alternative to veneer cases, this option allows customers to specify a monochromatic aesthetic.

Available on: Utility Credenzas, Food Service Credenzas, Consoles

Integrated Pull

For an alternative to the standard metal pull, an integrated pull option now provides a more minimalist design choice.

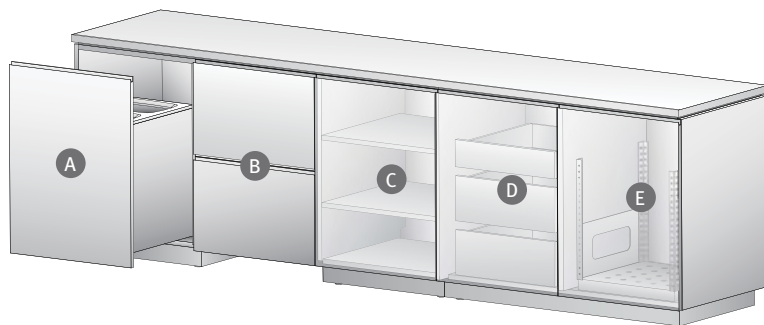

Available on: Utility Credenzas, Food Service Credenzas

New Top Options

From laminate with ABS edge, to glass, stone or solid surface options, Performance Credenzas now offer a broad range of top material choices to address a range of aesthetic, durability and pricing options (96"-long Utility Credenza shown in Oat Ash veneer with Clove Satin glass top).

Available on: Utility Credenzas

120"-long Credenza

This option consists of a 72"-long case and a 48"-long case side-by-side with a common top.

Available on: Utility Credenzas
