Koen

# Koen

The thin, deep, solid lines of the Koen base are perfectly rounded in a weightless, yet stoic design, which completes and complements itself.

The Koen Collection exudes a strong and alluring presence, which will complement any desired aesthetic. The versatility of the Koen Collection extends to conferencing, training, dining, benches, and occasional tables. Each series embodies its own unique design and function to support the needs of its desired application.

Koen's sleek and visually open steel base design allows light to pass through and reflect, creating the impression of spaciousness, while still providing stability and effective user work space. The beautifully sculpted smooth lines of Koen's base will enhance the sophistication of any environment.

Koen

 nevins™

The Koen Collection is a function of modern design with its strong steel base and beautifully engineered tops.

Koen's occasional tables and benches have the ability to visually elevate the aesthetics of a space, with their elegant and timeless design.
