Sachet

Designed by Jehs+Laub

Sachet by Jehs+Laub is an elegant fully upholstered chair designed to serve a multitude of applications. A wide range of options creates the basis for this sophisticated family of seating. Offered in multiple back heights, Sachet fits beautifully in offices, conference rooms, and other shared spaces. A variety of base options are available including a wire base, four-leg metal base, four-leg wood base, four prong caster base, four prong glide base, and five-star caster base. Each base tells its own unique story, offering elegant details to complement the delicate details of the shell.

Sachet wows with the smallest details, with no design feature left unaccounted for. Its upholstery details include a surrounding welt and classic stitch detail across the chair's back. Dominated by soft forms, finely tailored upholstery, and a sophisticated style, Sachet presents comfort and style restructured.

Sachet ushers in a new generation of seating with an innovative seat suspension system and flexible back construction providing long-lasting comfort and durability. Sachet's innovative design is concealed within the chair shell. Springs, molded into the foam shell, create amazing comfort in the seat and back.

With a classic design language, Sachet is broadening horizons in the modern office. The style is soft, delicate, and sleek with a surprising level of strength, durability, and support.
