

JOSEPH JEUP
Designer & President

Driven by instinctual talent and innate passion, Joseph Jeup embodies exceptional craftsmanship. He believes every detail is a design opportunity and that uncompromising standards yield incomparable results. This philosophy has helped establish Jeup as a world-class designer with a devout following who regard his work as functional art. As an engineer and a designer, he uses both disciplines to tackle design from a broad perspective, which is what defines him as a craftsman and artist.

PRESTON

P R E S T O N

Inspired by a Parsons table designed by Jean-Michel Frank, the Preston table accentuates any conference room or community space. Juxtaposing an inviting residential appeal with a high-tech solution for power and data, Preston is highlighted by a center channel that cleanly routes cables while dividing the stunning horizontal grain pattern. The linear design makes the table feel longer than it actually is, drawing users to its authoritative presence. The solid 2-inch-thick top is highlighted by a distinctive flaky white oak veneer with beauty rivaled only by its strength. Available in three sizes, as well as in a seated-height and standing-height options, Preston perfectly fits any size room and any aesthetic.
